Blackpool SEND Service Available Training Spring 2021

All these training sessions are an introduction to the topic – these will lead on to further training packages for schools at their request. The follow up training will be personalised to meet the needs of the schools and be in line with their school priorities, the training will be offered as full staff training, small group training, TA training or 1:1 coaching.

When participants complete a training session, they will receive an online evaluation form. Once the evaluation form has been completed and processed, participants will receive a copy of the training slides and certificate of attendance. Please allow at least one week for you to receive your evaluation form and then a week following completion of the form to receive a copy of the slides and certificate.
